

CONVOY

JUST-IN-TIME

Precisely on time, every time

Get guaranteed on time performance within 15 minutes of scheduled delivery. Discover the industry's most flexible way to ensure a disruption free-supply chain.

Unmatched flexibility

Eliminate the cost of backup services with our nationwide network that can flex to accommodate your demand surges.

Enhanced efficiency

Avoid production shutdowns with our AI technology that monitors every shipment and predicts arrival time. If problems arise, our teams proactively communicate and collaborate with you to ensure the shipment arrives on time.

Complete transparency

Get real-time location and granular status updates of each shipment via Convoys dashboard, within your TMS or customisable texts and email alerts.

Annual Freight Costs

Industry's only flexible service for freight with stringent delivery requirements

Maintain production schedules

Our AI technology matches carriers to your shipments based on proximity to pick up and have the highest likelihood of on time delivery

Manage lean inventory

Our just-in-time capacity can scale in a matter of days, enabling you to retain low inventories and replenish stock even during peak season.

Meet customer delivery requirements

With guaranteed on-time performance, avoid fines and penalties resulting from delayed deliveries to your customer's facilities.
