

POWER-ONLY FOR PRIVATE FLEETS

Get nationwide power-only capacity to haul your preloaded and empty dry van trailers through Convoy Go.

Unmatched power-only capacity

Convoy's network includes more than 300,000 tractors, making it the largest power-only fleet in the industry.

Flexible nationwide capacity

More than 300,000 power units nationwide provide reliable capacity that can flex to meet demand in any market.

High-quality carriers

We vet every carrier before every load. The results: a 16% lower crash rate, plus 99.95% of loads deliver without a cargo claim.

Next-day and same-day coverage

We've automated manual processes to match trucks faster, which means we can offer next-day and sometimes same-day coverage.

Real-time load visibility

Over 95% of Convoy loads are GPS trackable with the Convoy carrier app. Track your loads from pickup to delivery, and use shareable tracking links to keep customers in the loop.

Fill your empty trailers. Ship Responsibly.

Filling your backhauls with Convoy can help reduce 45% of carbon emissions from empty miles while saving you up to 30% on your empty trailer moves.

Convoy's technology automatically identifies live loads and backhauls in our network that can fill your empty trailers to help you save you money, achieve your sustainability goals, and make every mile count.

Get started

Email Convoy's Sales Development team at SD@convoy.com to tap into Convoy's power-only capacity, or learn more about Convoy Go's power-only service at convoy.com/power.
